

CITY OF HERMITAGE MS4 PROGRAM

WallacePancher Group completed the permit renewal for the City of Hermitage's Municipal Separate Storm Sewer System (MS4) plan required for the City's NPDES permit for municipal stormwater discharge.

The project included assisting the City navigate the new requirements and assembling the permit package, which involved analyzing an impaired watershed within the City.

This ongoing multi-year project includes the following tasks:

- MS4 Permit Renewal
- Citywide Outfall Inspections
- Citywide Stormwater System Mapping, GIS Creation
- Pollutant Reduction Plan and a stream restoration project to address impaired watershed.

SERVICES PROVIDED:

- **Assembly of MS4 Permit Renewal Package**
- **Pollution Reduction Plan Preparation (PRP)**
- **Analysis of effective BMP's to address PRP Requirements**
- **Outfall Inspection & Illicit Discharge Reporting**
- **Stormwater System Mapping**
