

Unkefer Well Pad

WallacePancher Group designed and permitted the Unkefer Well Pad Project located in eastern Ohio for Hilcorp Energy Company.

Services provided included environmental investigations, engineering design (including Detailed Drawings, Emergency Release Conveyance Map, Sediment & Erosion Control Plan, Well Site Boundary [GIS Files], Dust Control Plan, Geotechnical Report, Stormwater Hydraulic Report, and Horizontal Well Site Construction Application), Highway Occupancy Permits and Unconventional Well Site Driveway Permits, and environmental inspection.

The construction of the well pad occurred in 2017.

SERVICES PROVIDED:

- Environmental Investigations
- Engineering Design
- State/Federal Permitting
- Environmental Inspection
- Haul Route Mapping
- Highway Occupancy Permits
